The goal of the TLSAMP program is to increase the number of underrepresented African American, Hispanic, and Native American students in science, technology, engineering, and mathematics (STEM) by at least 100% at the end of five years. The objectives to support the goal of the alliance are to:

- Recruit underrepresented students to pursue science or engineering as a career;
- Improve the quality of the learning environment for underrepresented science and engineering students at all schools; and
- Ensure that a larger number of undergraduate students are prepared to enter graduate programs.

Eligibility Requirements

- Incoming Freshman Fall 2013
- Enrolled at LeMoyne-Owen College, Middle Tennessee State University, Tennessee State University, University of Memphis, University of Tennessee-Knoxville, or Vanderbilt University
- Majoring in a STEM (Science, Technology, Engineering, or Mathematics) discipline

2013 TLSAMP Summer Bridge Program

APPLICATION DEADLINE: APRIL 12, 2013

How to apply: Applications are available from the home Institution contact or by visiting the website at: http://tlsamp.utk.edu/incoming.html

Funding provided by the National Science Foundation

Program Purpose

- To provide a transitional program of study from high school to the university for students with STEM majors.
- To offer students an overview of courses required in their freshman curriculum in the STEM areas.
- To offer the STEM student preliminary exposure to the academic environment of higher education.
- To develop academic success skills in STEM students.
- To provide students an opportunity to attend technical seminars and related field trips.
- To provide a stimulating and nurturing environment for learning, exploration, and study in the STEM fields.

What our program provides

- An all-expense-paid, four-week residential program sponsored by the National Science Foundation funded Tennessee Louis Stokes Alliance for Minority Participation program. Housing will be provided on the campus of program host University of Tennessee-Knoxville.
- An introduction to college life and preparation for math, science, English, and engineering fundamentals needed to succeed in college.
- Hands-on learning opportunities, tours, social, and recreational activities.
